Stay Healthy This Winter!

Interested in helping your family stay healthy this time of year? According to the Centers for Disease Control, there is a simple, two-step solution for halting the spread of germs:

Wash your hands and do not touch your face.

Wash your hands and wash them often– with soap and water. If you don't have much water, you can use an alcohol-based hand sanitizer.

When should you wash your hands?

After you go to the bathroom

After you change a diaper or clean up a child who has gone to the bathroom before you prepare or eat food

After caring for someone who is sick

After handling uncooked foods, especially raw meat, chicken or fish

After blowing your nose, coughing or sneezing

After handling an animal or animal waste

After handling garbage or cleaning up

Do not touch your face. Germs are generally located on dirty hands and by touching your eyes, nose, or mouth you infect yourself with them. This winter, remember the easy two-step method to keeping your family healthy.

Financially Fit: Resolutions for the New Year

<http://financialplan.about.com/library/weekly/aa123099a.htm>

The new year is an ideal time for recommitting ourselves to things that are important to us. What could be more important than being financially fit? And what could be better than starting fresh in a new year? Now's the time to set your goals. Here are my picks for the most important resolutions for financial fitness this year and beyond.

If you don't have a written budget, do one now. If you have a budget, resolve to stick to it. Resolve to save between 5 & 10% of your take home pay. Don't set money aside only when there's some left over; pay yourself first.

Resolve to pay off those credit cards. Credit card debt is the number one reason that most people can't get ahead.

Financial Resolutions to start the New Year off Right

www.rcrc.rutgers.edu/money2000/pressroom/release.asp?id=152

Looking for ideas to improve your finances during the upcoming year?

Take advantage of higher contribution limits for both individual retirement accounts (IRA's) and tax-deferred employer retirement plans such as 401(k)s, 403(b)s, and Section 457 plans. (Thrift Savings Plan for the military)

Maintain a low debt-to-income ratio. Monthly consumer debt payments should be 15% or less of monthly take home pay. E

Accumulate an emergency fund of at least 3 month's expenses. Keep this money liquid in cash equivalents such as a credit union account, money market mutual fund, or short-term CD.

Financial Tips for the New Year

Review your budget and make adjustments for the upcoming year. In addition to your normal monthly expenses don't forget periodic expenses such as vacations, travel, gifts, auto/home/yard maintenance, education, and entertainment.

Consider opening a Christmas savers Account in January with your financial institution.

Create a savings plan for large purchases such as auto, furniture, or a down payment for a house. You Battalion's (CF/FAS) can assist you with creating/reviewing a budget and with debt management tips. Contact the Financial Readiness Branch at 287-8979/288-2862.
